Land on 40.00 Acres

N/A, Kevin, MT

Surrounded by adventure and open space, this property borders state land on one side and BLM land on two sides, giving you endless room to explore. Power is close if you want it, but with those wide-open skies, itâ€™s perfect for going solar. Wind power is a big favorite out here too. The land is mostly flat with a gentle roll in places, making it super easy to set up camp, build a getaway cabin, or create the off-grid dream you've been thinking about. If youâ€™re ready for big skies, fresh air, and real freedom, this spot is calling your name.

The oil Derricks and tanks are owned by the people who own the mineral rights and do not transfer with this sale. The sale is for the land only.
