Residential on 0.10 Acres

Windsor Park, Missoula, MT

Welcome to 4824 Storehouse Way! This four-bedroom, three-bathroom home is ready for its next owner! Showcasing 2,056 square feet with an efficient floorplan and some great perks. Upon entering the home, you are greeted by hardwood floors, and a cathedral ceiling. The main level features an open concept between the living room and the kitchen, and enough space for a dining table. The kitchen has ample counter prep space, and plenty of cupboards and cabinets. The primary suite is located on the main level, with access directly to the back patio. The full en-suite includes a private bathroom, and large walk-in closet. The main level's second bedroom is one of the great features of this house. A jack and jill set-up for a bathroom allows this bedroom to become a second en-suite, or private area bedroom/bathroom area for guest. The attached garage has access at the main level of the home. Downstairs, you will find the second living room, which is nicely sized and has laminate flooring. The lower level of the home has two bedrooms, one of which is oversize, a full bathroom, and laundry room. The home sits at the end of a private access area with a fully fenced backyard. This is a great option for anyone looking for a home with a high bedroom count!
