Residential on 0.15 Acres

N/A, Missoula, MT

Constructed in 2019, this turn-key Linda Vista home is beautifully finished and meticulously maintained. The home features a timeless aesthetic and a neutral palette, along with some lovely whimsical touches. The functional floor plan offers main-level living plus a fully finished, daylight lower level. On the main level, the great room is anchored by a well-appointed kitchen, and striking gas fireplace in the living area. The high ceilings and tall windows add volume to the space, and the mountain views are beautiful in every season. The kitchen includes beautiful countertops and cabinetry, stainless appliances, and an attractive tile backsplash in a herringbone pattern that extends to the ceiling. In the primary bedroom, a custom, built-in headboard and nightstands give the space an artisan feel, while the en suite bathroom and walk-in closet are generously sized and convenient. The second bedroom on the main level has been finished with bead-board and painted in that sage green that designers are loving for its ability to create tranquility. A second full bath and laundry room complete the interior of the main floor, with access to a large covered back porch via sliding doors, expanding the living space for several months of the year. Downstairs, a versatile second living space and two generously sized bedrooms provide tons of options. There is a third full bathroom in the lower level, tons of storage, and direct access to the lower level patio and backyard. This is a

very special home with lots of special touches
and thoughtful details that are sure to please.
