N/A, Helena, MT

Woah! This property fits a niche that most Helena buyers seem to be craving. With 1,940 sq/ft, this 4 bedroom/1.75 bath home sits on just under half an acre for UNDER \$490k. Plus, it's just minutes from town! Plenty of yard front and back as well as parking along the west end of the property gives room for all your family's weekend toys. Central A/C and forced heat within the home, along with a fully heated and insulated garage, provide comfort year around. With two total living rooms and bedrooms on both levels, this layout ensures everyone has their own space. Also, a fairly new solar system has been installed to lower monthly energy costs. This home provides a great opportunity to someone looking within the average Helena price point, wants a neighborhood with larger lots, needs that fourth bedroom to utilize or grow into, and doesn't want a longer commute that typically adorns this price point/lot size combination.
