Hatheway House has a rich history reaching back to the inception of Missoula. CAMA data shows it was built circa 1915, but other evidence suggests it may have been built closer to the turn of the century. This historic building is zoned RM1-35 and features 2 reception areas, 2 first floor conference areas and a 3rd conference room area on the 2nd floor. The 3rd floor has ample storage and additional office space available as well. In addition to the space in the main structure, there are also two apartments located in the rear of the property.

This spacious Victorian home is uniquely located between downtown Missoula and just a stones throw from the University of Montana.
