Residential on 0.15 Acres

N/A, Missoula, MT

This well-loved, one-owner home offers classic 1950s character and abundant natural light throughout. The standout feature is the oversized 3-car garage—a rare and valuable asset for extra vehicles, workshop space, outdoor gear, or all those toys and tools. The main level includes three bedrooms with built-ins and hardwood floors under the carpet. The kitchen retains its mid-century charm with crisp white cabinetry, while a practical layout with ample counter space and adjacent dining area makes it the heart of the home. The finished basement offers a spacious laundry room with refrigerator and sink, three bonus rooms, a half bath and an additional living room. Exterior features include a covered side patio, fenced yard, and off-alley parking. Recent updates include a newer furnace and new roof on house and garage. A solid home with practical features, room for your personal touch, and that hard-to-find combination of central location and exceptional garage space.
